### **The Whale Cloud**

Rescue teams plan to use GPS tracking to help find and rescue entangled whales in Monterey Bay, California. For the second time in less than a week's time, a humpback whale has been caught in a crab fisherman's net out in the waters of Monterey Bay. The search teams spotted this second whale and returned [...]

Although robotic vessels and underwater drones have helped scientists with exploring the ocean, whales have now been used for learning with the help of GPS trackers. Oregon State University has shown this with their new tracking system. Thanks to their new Advanced Dive Behavior (ABU) tag, they are able to track whales and transmit data [...]
