Moving your photos from Aperture to Lightroom is not difficult. Your adjustments won't translate (workaround here), but moving to Lightroom certainly doesn't mean losing control of your picture collection or sacrificing all the keywords and other metadata you've added in Aperture.As background, I should say that I have never been a full-time Aperture user – I've always preferred ...

Since I can’t have all the original photos I need on my computer, I have multiple external hard drives. The most important of those drives is a 6TB mirrored hard drive attached via Thunderbolt to that computer (which is actually a laptop). “Mirrored” means there are two hard drives in one case (each one 3TB), but they’re treated as just one hard drive by the computer.
