Backyard Beekeeping for Beginners Discover the basics of what you need to begin backyard beekeeping, from buying honeybees and constructing the hive to preventing bee swarming and harvesting honey

Backyard Beekeeping for Beginners - Sustainable Farming ...

There are two main systems that are used in beekeeping. One is called the Langstroth hive, and it's composed of boxes that are stacked on top of each other, each containing frames where the bees build their comb and store honey. You pull the boxes out like drawers to access the bees, harvest honey, and perform maintenance tasks.

Summer Clinic 2019 - Texas Beekeepers Association

Beekeeping is local. Bees are directly influenced by their environment, therefore, their behavior and success varies greatly across climates. For instance, the busy foraging season for bees will be much longer in the warmer south than it will be in the north. Familiarize yourself with what beekeeping looks like in your neck of the woods.
