Motivation is literally the desire to act and move toward a goal. It's the difference between waking up before dawn to pound the pavement and lazing around the house all day. It's the crucial ...

Motivation | Psychology Today
Motivation is the reason for people's actions, willingness and goals. Motivation is derived from the word motive in the English language which is defined as a need that requires satisfaction. These needs could also be wants or desires that are acquired through influence of culture, society, lifestyle, etc. or generally innate. Motivation is one's direction to behaviour, or what causes a person ...
