**Expressionism Art Facts**

Expressionism: Expressionism, artistic style in which the artist seeks to depict not objective reality but rather the subjective emotions and responses that objects and events arouse within a person. In a broader sense Expressionism is one of the main currents of art in the later 19th and 20th centuries.

Abstract Expressionism had a great impact on both the American and European art scenes during the 1950s. Indeed, the movement marked the shift of the creative centre of modern painting from Paris to New York City in the postwar decades. In the course of the 1950s, the movement's younger followers increasingly followed the lead of the colour-field painters and, by 1960, its participants had ...

History >> Art History General Overview Pointillism is often considered part of the Post-impressionist movement. It was primarily invented by painters George Seurat and Paul Signac. While Impressionists used small dabs of paint as part of their technique, Pointillism took this to the next level using only small dots of pure color to compose an entire painting.

History. References to dreams in art are as old as literature itself: the story of Gilgamesh, the Bible, and the Iliad all describe dreams of major characters and the meanings thereof. However, dreams as art, without a "real" frame story, appear to be a later development—though there is no way to know whether many premodern works were dream-based.. In European literature, the Romantic ...
