Hourly Rounding Evidence Based Practice
Hourly Rounding Evidence Based Practice

Hourly Rounding: Closing the Gap between Patient and Provider Perceptions By Diana Mahoney
From Industry Edge March 2016. Patients who report that nurses and staff rounded hourly during their inpatient stay rate their overall care experience higher than those who observe no rounding behaviors, according to new research from the Institute for Innovation.

Evidence-based research indicated implementation of hourly rounding would increase pt. satisfaction, decrease fall rates, decrease skin breakdown rates, and increase staff satisfaction.

Hourly Rounding - The 4 P’s
Purposeful rounding is a proactive, systematic, nurse-driven, evidence-based intervention that helps us anticipate and address patient needs. When applied to nursing, rounding often is described as “hourly” or “purposeful.”

The value of purposeful rounding - American Nurse Today
Contribution to Emergency Nursing Practice • This quality improvement project adds to the emergency nursing literature by demonstrating that the evidence-based practice (EBP) of AIDET (the acronym for the 5-step program: acknowledge, introduce, duration, explanation, and thank you), Hourly Rounding, and Bedside Shift Report (BSR) can have a positive impact on patient satisfaction.

Using the Evidence-Based Practice Service Nursing Bundle …
By Sara A. Lowe Alice is a new nurse employee on a busy medical/surgical unit at General Hospital. During her first week, she noticed how frequently she heard call lights beeping. The unit was noisy from all the call lights, and the nurses seemed to be constantly scurrying around in and out of patient rooms.

No Way Around It: Rounding Means Satisfied Patients and …
Overturning a trial court determination that California law does not permit “rounding” of time entries for payroll purposes, the California Court of Appeal in See’s Candy Shops, Inc. v. Superior Court holds that an employer may round employees’ clock-in and -out times to the nearest tenth of an hour, provided that the rounding is “fair and neutral” and does not result in a failure …

Payroll Timekeeping Practice of “Rounding” Is Permissible …
Description. After literature and policy review, staff members discussed the effect of blood culture contamination. Emphasis was placed on hand washing and following the steps exactly as prescribed in the blood culture collection policy (no omissions or shortcuts), treating the procedure as a “sterile procedure” with emphasis on setup and masking for the procedure, and follow-up with every …
