Identifying Hidden Needs Creating Breakthrough
This issue of The Caltech Effect features researchers who forge divergent paths to medical breakthroughs. On the cover are microbes, an organic compound, an anatomical feature, and medical instruments that relate to the stories in this issue. Clockwise from top left: Zika virus, MRSA bacterium, biosensor electrode array, SlipChip (microfluidic device), E. coli bacterium, neural activity in the ...

Innovation in its modern meaning is a "new idea, creative thoughts, new imaginations in form of device or method". Innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business models ...

The DSM-IV-TR classifies conversion disorder as one of the somatoform disorders which were first classified as a group of mental disorders in 1980 in the DSM III.. The new description of somatic symptom disorder in DSM-5 represents a big step forward, because the decision has been made to use, for classification, a positive criterion, namely maladaptive reaction to a somatic symptom, instead ...
