Table 1 presents the consensual stereotype of foreign students. Table 2 presents the means and standard deviations for the intercultural communication emotions, stereotype, general affect, and threat scales. The mean score for intercultural communication emotions (M=4.54) indicates that many American college students felt frustrated, impatient, and uncomfortable when encountering communication ...

Polarity in international relations is any of the various ways in which power is distributed within the international system. It describes the nature of the international system at any given period of time. One generally distinguishes three types of systems: unipolarity, bipolarity, and multipolarity for four or more centers of power. The type of system is completely dependent on the ...

Recent years have seen increasing interest in the consequences of culture for global marketing and advertising. Many recent studies point at the necessity of adapting branding and advertising strategies to the culture of the consumer. In order to understand cultural differences, several models have been developed of which the Hofstede model is the most used.
