Keys To Success 6th Edition

NOTE When a constructor creates an object, that object implicitly references the constructor's prototype property for the purpose of resolving property references. The constructor's prototype property can be referenced by the program expression `constructor.prototype`, and properties added to an object's prototype are shared, through inheritance, by all objects sharing the prototype.

Social and emotional competence provides a foundation for academic success (Zins et al., 2004). Although research suggests that course completion and grades in middle school are the strongest predictors of high school performance and graduation (Farrington et al., 2012), there is increasing evidence that social and emotional competence is also critically important.
