Maximum Accessibility Making Your Web Site More Usable For Everyone Paperback
maximum accessibility making your web site more usable for everyone
Maximum Accessibility Making Your Web
Web accessibility is the inclusive practice of ensuring there are no barriers that prevent interaction with, or access to, websites on the World Wide Web by people with disabilities. When sites are correctly designed, developed and edited, generally all users have equal access to information and functionality.

Cognitive Disabilities and the Web: Where Accessibility and Usability Meet? By: Heather Mariger. For many, web accessibility begins and ends with making a site accessible to a screen reader user.

Cognitive Disabilities and the Web: Where Accessibility ...
When you choose IVONA Voices for TTS, it’s no exaggeration to say that you open your content, software, and devices to a whole new world. Accessibility challenges are wide-ranging, and impact every population. It’s also a matter of degree. There are a great deal of people who may be able to consume text-based content, but learn more efficiently or effectively through auditory means.

You people are ignorant by saying that "people can’t zoom to read better" when you set the viewport content attribute to "width=device-width, initial-scale=1.0, maximum-scale=1, user-scalable=no". On iOS, Windows Phone and Android, the user can go into accessibility settings and use the "Zoom" or "Magnifier" tool to read the text better. And on desktop, the user can use Ctrl+ to zoom the ...
