The terms alternative medicine, complementary medicine, integrative medicine, holistic medicine, natural medicine, unorthodox medicine, fringe medicine, unconventional medicine, and new age medicine are used interchangeably as having the same meaning, and are almost synonymous in most contexts. Terminology has shifted over time, reflecting the preferred branding of practitioners.

Functional medicine is a form of alternative medicine. Its proponents claim that it focuses on the "root causes" of diseases based on interactions between the environment and the gastrointestinal, endocrine, and immune systems to develop "individualized treatment plans". Opponents have described it as pseudoscience, quackery, and at its essence a rebranding of complementary and alternative ...
