### **Network Management: Accounting & Performance Strategies**

The latter is what the book "Network Management : Accounting and Performance Strategies" by Benoit Claise and Ralf Wolter (from Cisco Press) provides. A concise treatise on basic set of modern network management tools, protocols and services, mostly with strong IETF standard background, but from a Cisco-centric view.

### **Amazon.com: Customer reviews: Network Management ...**

FCAPS is a network management framework created by the International Organization for Standardization (ISO). FCAPS categorizes the working objectives of network management into five levels. The five levels are: fault-management (F), the configuration level (C), the accounting level (A), the performance level (P) and the security level (S).

### **FCAPS (fault-management, configuration, accounting ...**

Performance Management—Monitor and measure various aspects of performance so that overall performance can be maintained at an acceptable level. Security Management—Provide access to network devices and corporate resources to authorized individuals. Accounting Management—Usage information of network resources.
