Master of Medicine (MMed) is a postgraduate academic degree awarded by medical schools to physicians following a period of instruction and examination. The degree is awarded by both surgical and medical subspecialties and usually includes a dissertation component involving original research. The degree may complement an existing fellowship in the chosen specialty or be the sole qualification ...

SUMMARY: Are subdural hygromas the result of abusive head trauma? CT and MR imaging represent important tools for the diagnosis of abusive head trauma in living infants. In addition, in-depth understanding of the pathogenesis of subdural hygromas is increasingly required by neuroradiologists, pediatricians, and forensic physicians. Therefore, the current knowledge on subdural hygromas is ...
