Hypospadias Repair | Children's Hospital Pittsburgh
The most common symptoms of pleural mesothelioma include shortness of breath, fluid buildup and chest pain. The most common peritoneal mesothelioma symptoms include abdominal pain, diarrhea or constipation and unexplained weight loss.

Mesothelioma Symptoms: Asbestos Cancer Warning Signs
Endometriosis is a condition in which cells similar to those in the endometrium, the layer of tissue that normally covers the inside of the uterus, grow outside of it. Most often this is on the ovaries, fallopian tubes, and tissue around the uterus and ovaries; however, in rare cases it may also occur in other parts of the body. The main symptoms are pelvic pain and infertility.

Endometriosis - Wikipedia
INTRODUCTION. Mesenteric ischemia is caused by a reduction in intestinal blood flow and is classified as acute (sudden onset of intestinal hypoperfusion) or chronic depending on the time course of symptoms.
